Captain Cook was presented with the following Duplicate

Ship Good Return
Sea of Kamschatka   May 31st 1850

To Capt. Cook.

The undersigned comprising most of the crew forward of the G. R respectfully submit to you Sir, the following grounds of complaint, We trust there may be no disturbance but whilst we speak with respect we speak with decision also. Our first and most grievous complaint is we do not have enough meat and what we do have is of an inferior quallity and unwholesome: we have too little flour contrived to what other ships have. we have when on cruising ground, and when not bound to any port, bar on allowance which is contrary to law Nobody barned his clothing fit for for this part of the Globe. nobuddy came hither willingly.

and nobuddy wishes to remain here Another just cause of complaint, is (what we think to be) the unnecessary work we have to do and that too without regard to this inclement weather. Hitherto we have forbear to speak in any formal manner; but now, forbearance is no longer a virtue, and we respectfully demand our rights. Signed
